Genaro Bonavita

Frontend Developer

I have +1 year of experience building solutions and solving problems through clean and maintainable code.

I put particular focus on the details that make the user experience incredible. Things like performance, accessibility, and responsive design are my strong point.

WORK EXPERIENCE

Frontend Developer at GoCode

08/22 - Present · Buenos Aires, Argentina - Web services, Consultancy

RESPONSIBILITIES

- Mentoring trainee talent.
- UI design and development with design patterns and best practices.

KEY ACCOMPLISHMENTS

- Finished two projects for two clients, helping them reach more people.
- Helped increase my teammates' knowledge and skills through pair programming sessions.
- Improved my team's efficiency by reducing meeting time from 45min to 20min, planning and delegating tasks.

CloudCreate Hackathon 2nd place winner

The CloudCreate hackathon, presented by Miguel Ángel Durán, was a competition where participants had to build a product from scratch using Clouinary services.

[Clippitt](#), a tool for creating vertical videos for social networks, was awarded the second best project in the competition and promoted on Clouinary's social networks.
